

what if you swapped
orientation of headlights? ♡ ♡

Head Light Idea

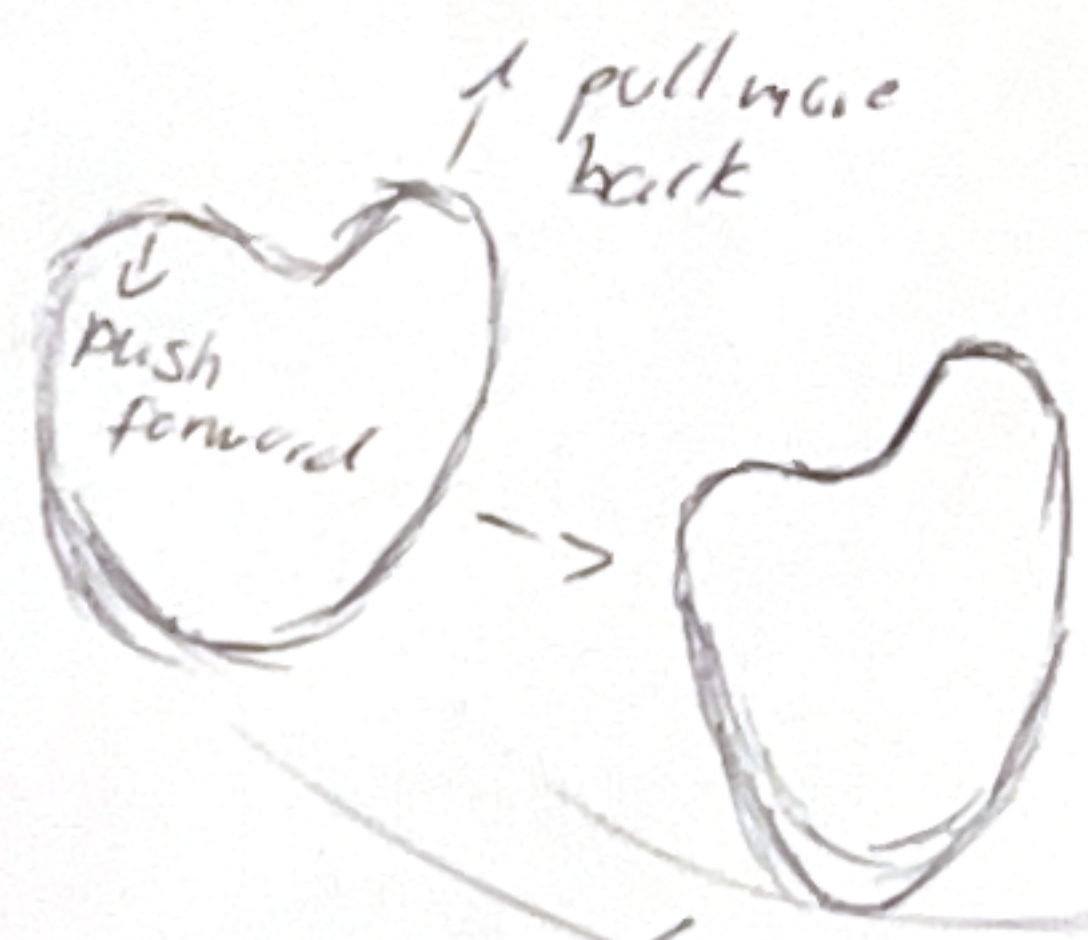

Arla logo 2002-2008 (products)

bring high beam headlight forward and down and daytime running light up and back

could also be split like ford at 2017

top view

rather than putting the lights right next to each other, they could be staggered for more dynamic

empty area could be textured

thing ring of light following slope

daytime running light

high beam headlight

needs to point further inward angled front view

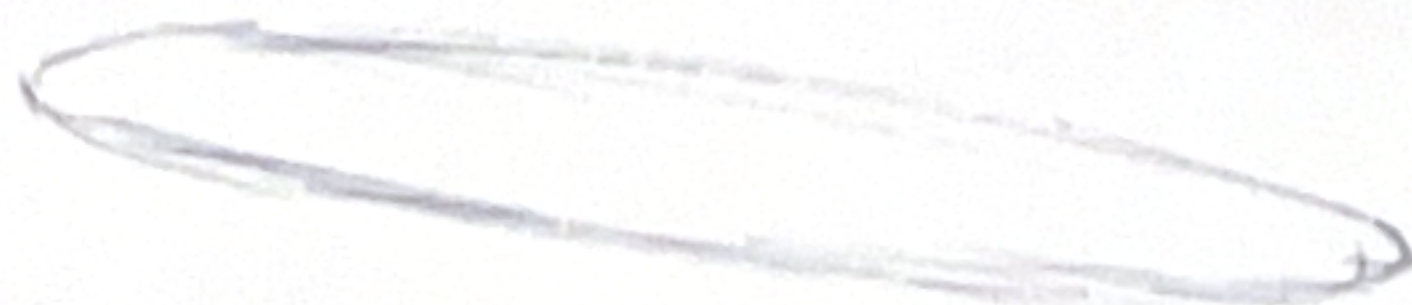

perspective messed up

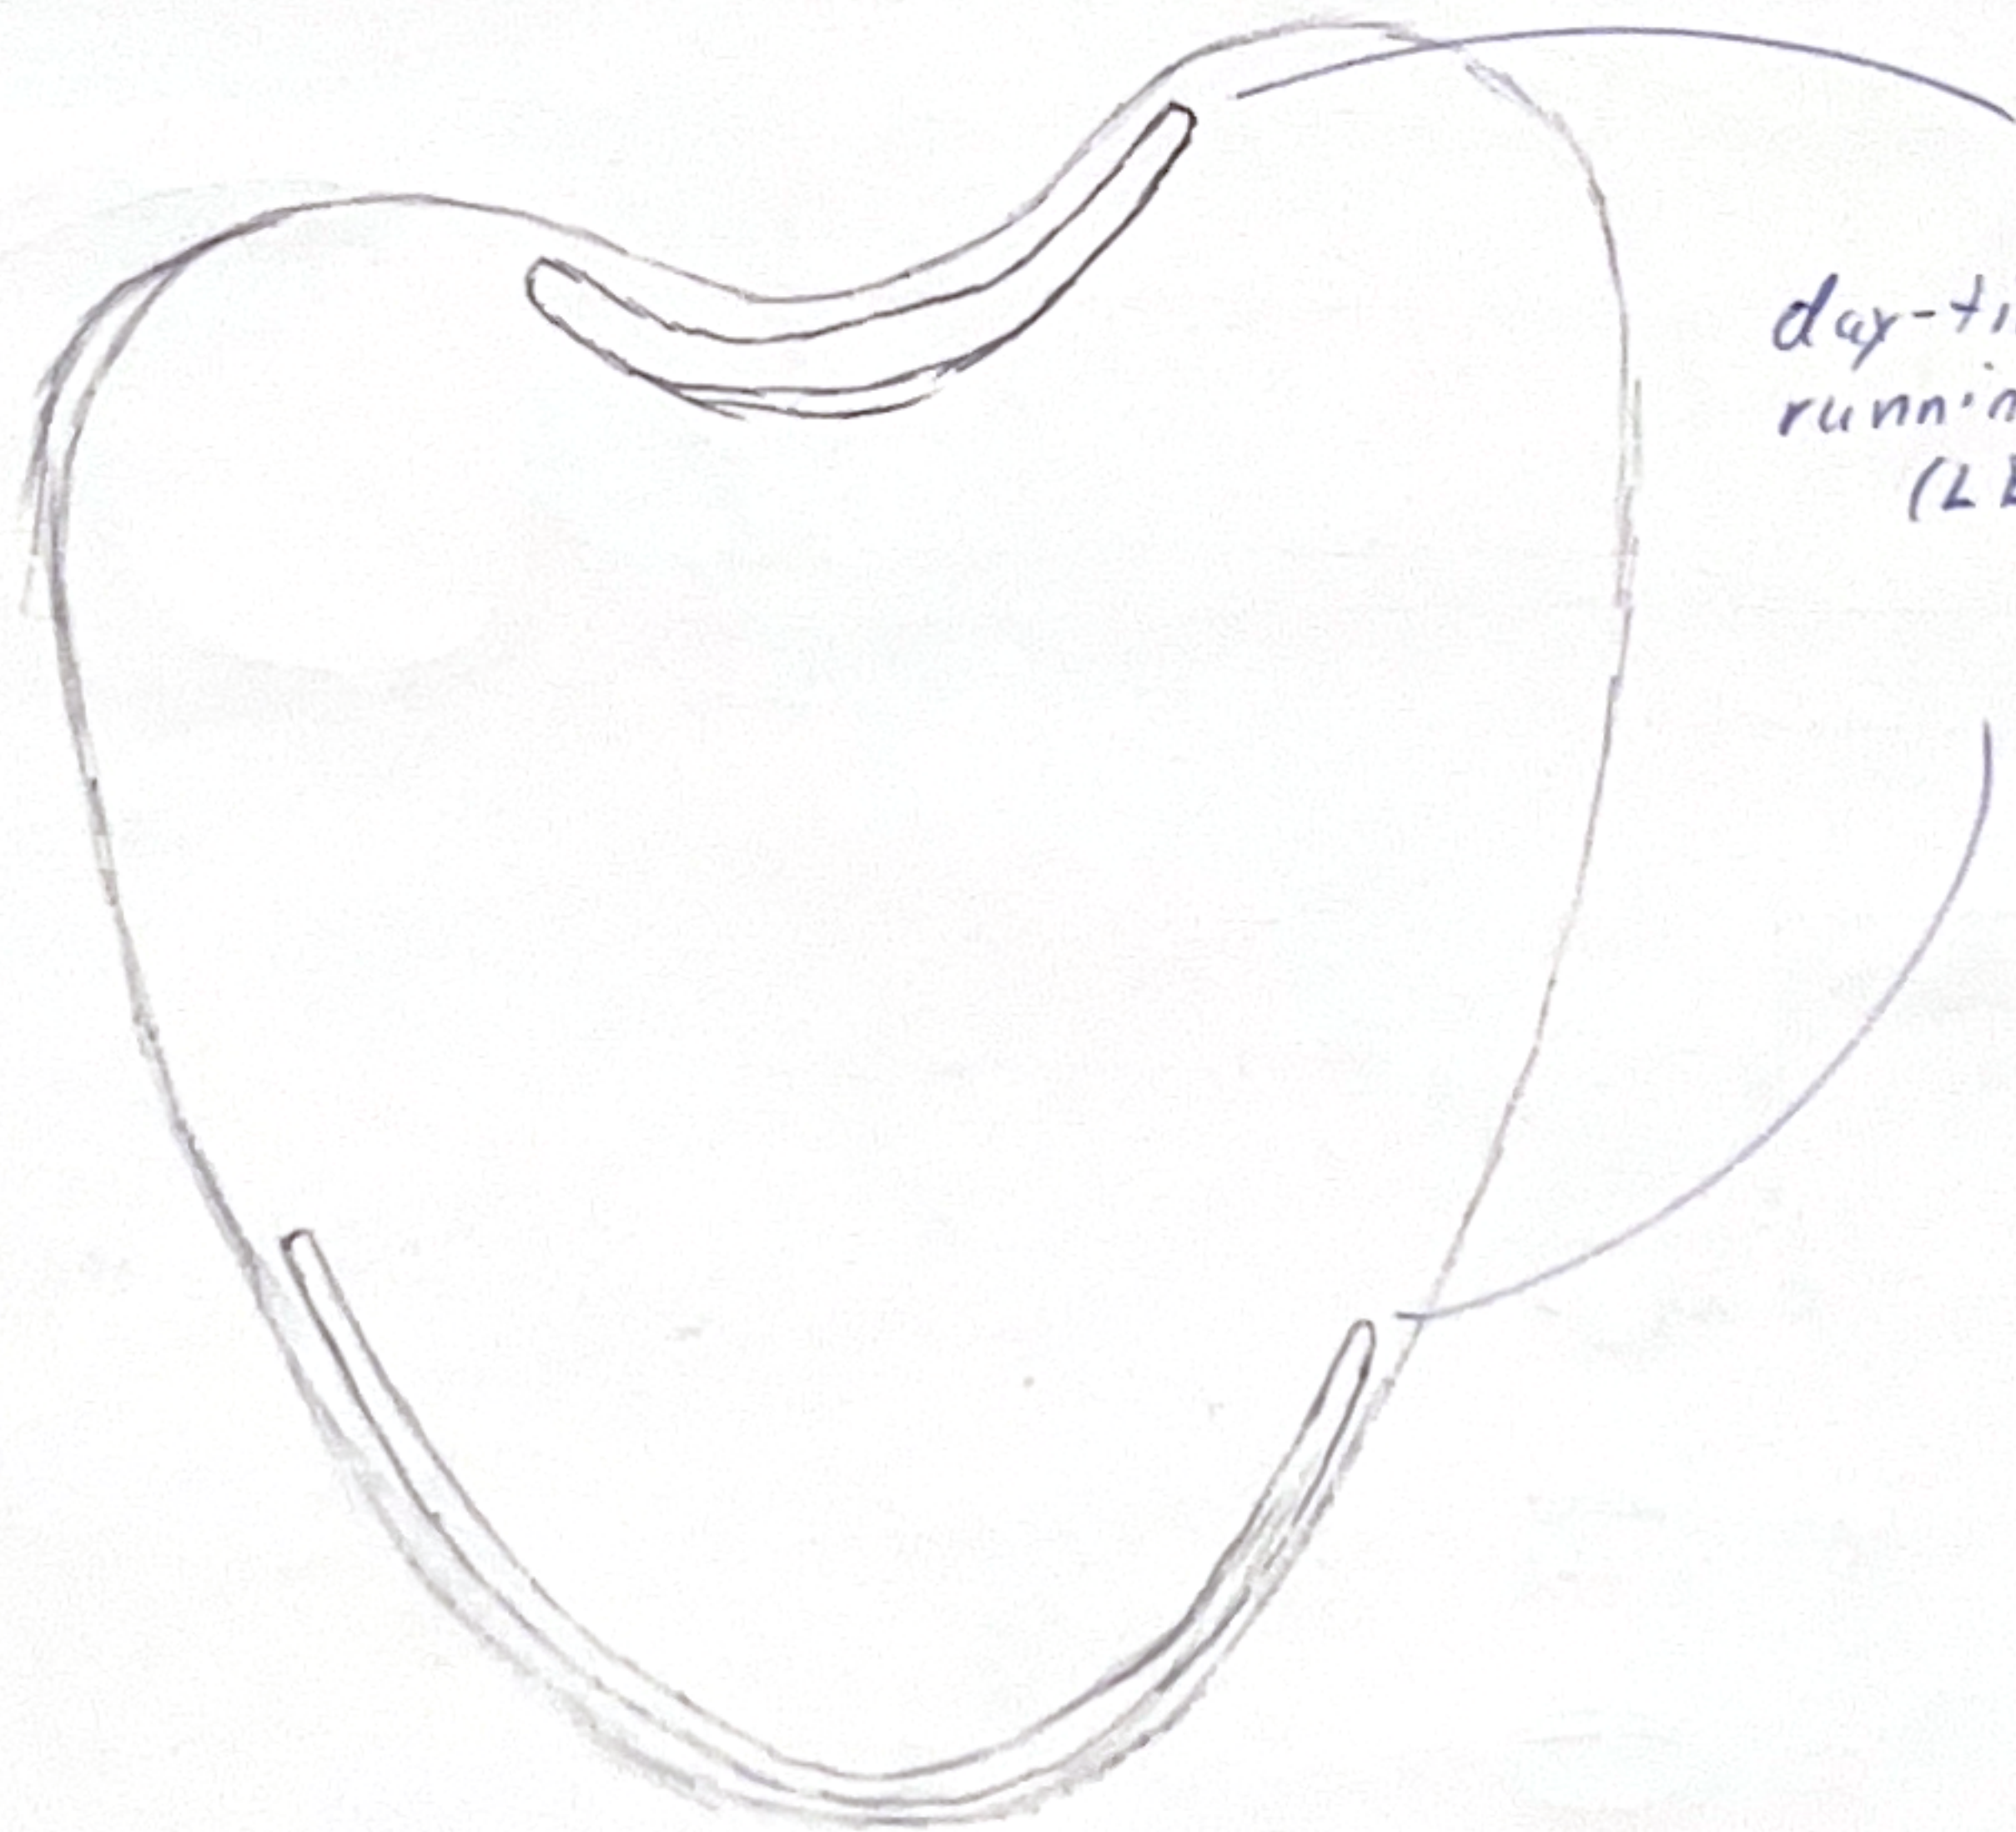

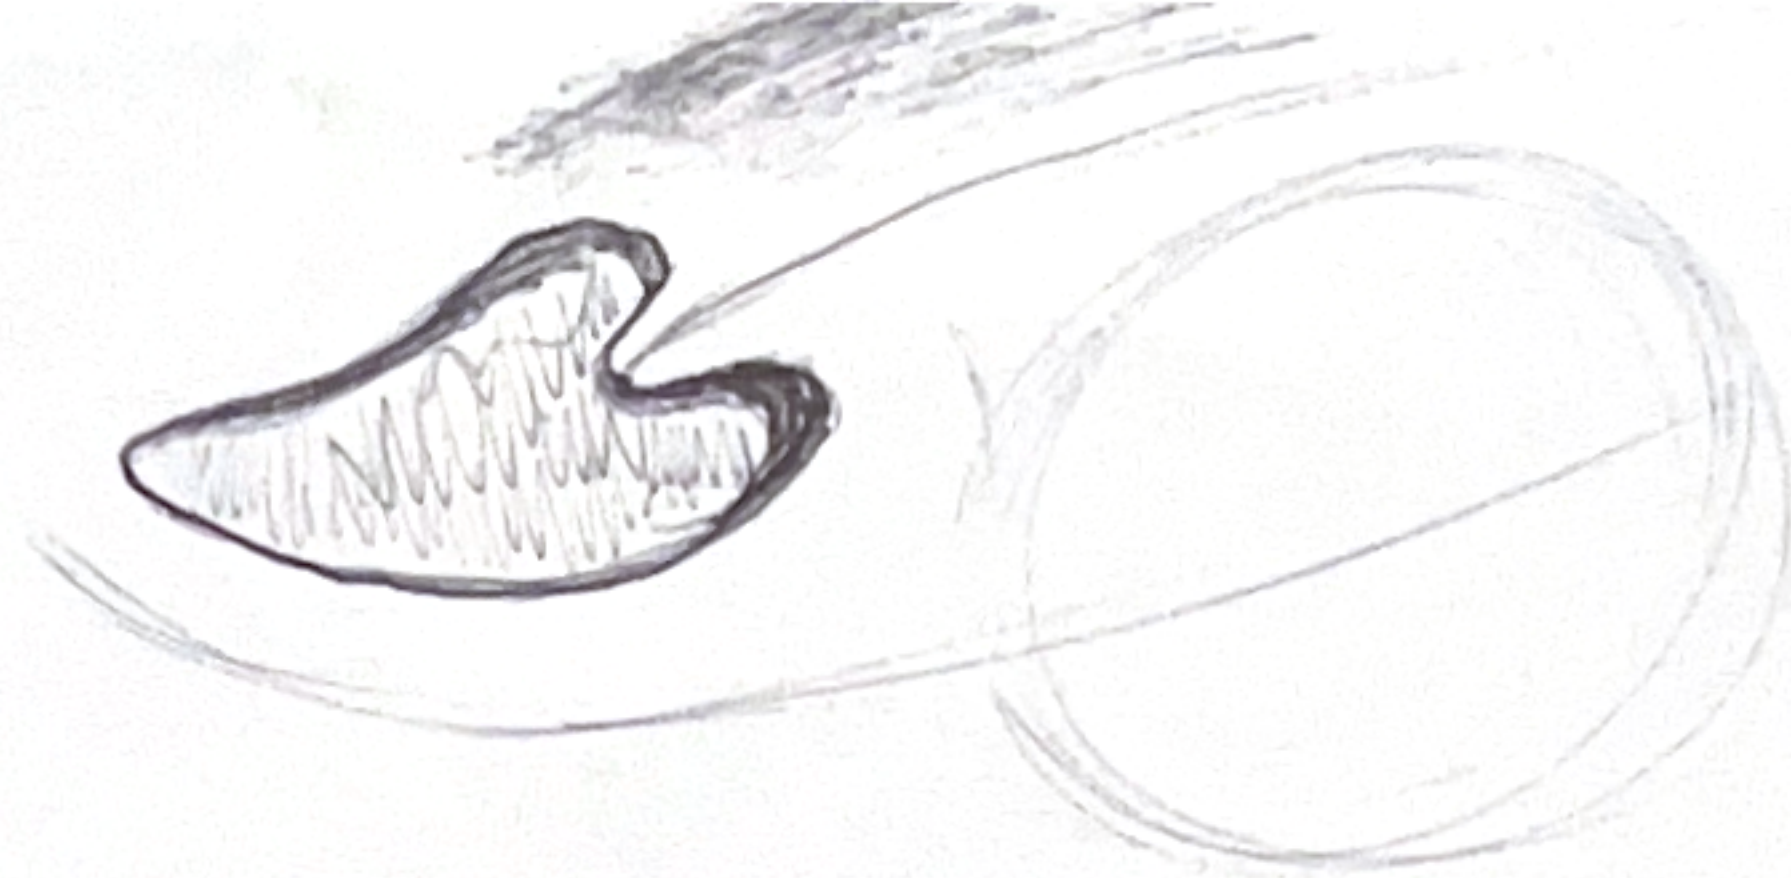

Rear Lights

looks like headlights

Subaru-brz

day-time
running lights
(LED)

play with the
location of day-time
running light strip
along outline of head-
lights.
